

EAGLE BARQ CO GENERAL TRADING

Supplier of
Equipment in
Oil, Gas and
Petrochemical
Industry, Power
Plants and Power
Lines, Electrical
Machines and
Tools, HV stations

Eagle Barq co **General Trading** commenced its activities in 2003 as Engineering - Trading company by supplying a complete range of Mechanical and Electrical equipment such as: instrumentations, industrial valves, pumps, connections and motors as well as many other items in field of Oil, Gas, petrochemical industries, Power plants, HV-Station and all projects related to these industries.

Since we have a good relationship with renowned and reputed manufacturers, major mills, and suppliers in Europe, USA and Asia we would be able to supply high-quality equipment to the correct specification, competitive price and best delivery time for any costumer's inquiry.

Another unique characteristic of Eagle Barq is its ability to respond with rapid customized service support, offering customers the flexibility with broad technical knowledge resources.

With needs of customers constantly changing, our company proudly offers the "Best" services according to constantly-changing market and customers' demands, and keep our valued customers satisfied.

We commit to be very aggressive in our attitude towards quality and customer service by seeking out a better understanding of the requirements and specifications and providing high quality products that are cost effective.

Here is explained brief information about some important manufacturers that our company is able to provide equipment based on client's needs.

ABB (ASEA Brown Boveri) is a Swedish-Swiss multinational corporation headquartered in Zürich, Switzerland, operating mainly in robotics and the power and automation technology areas.

The products that our company can provide in brands of ABB included:

- ✓ Control products and systems
- ✓ Drives
- ✓ High Voltage Products
- ✓ Low Voltage Products and Systems
- ✓ Measurement and Analytics
- ✓ Mechanical Power Transmission Products
- ✓ Medium Voltage Products
- ✓ Metallurgy Products
- ✓ Motors and Generators
- ✓ Offshore Wind Connections
- ✓ Power Converters and Inverters
- ✓ Power Electronics
- ✓ Robotics
- ✓ Transformers
- ✓ Turbocharging
- ✓ UPS and Power Conditioning

SIEMENS

Siemens AG is a German conglomerate company headquartered in Berlin and Munich and the largest manufacturing and electronics company in Europe with branch offices abroad.

The range of products in Siemens company is so Extensive. Some of the products in oil and gas industry that our company can supply are:

Automation systems, Operator control and monitoring systems, Identification systems, Industrial communication, Industrial controls, Manufacturing execution system, PC-based automation, Process analytics, Process instrumentation, Process control system, PLM software, Power supplies, Products for specific requirements, Industry Services and many other items.

And some products in the energy industry are:

Fossil Power Generation, High-voltage - Power Transmission, Energy Automation & Smart Grid, Compression & Expansion, Medium-voltage - Power Distribution, Renewable Energy, Instrumentation, Controls & Electrical, Low-voltage - Power Distribution.

SIEMENS

Field Instruments for Process Automation

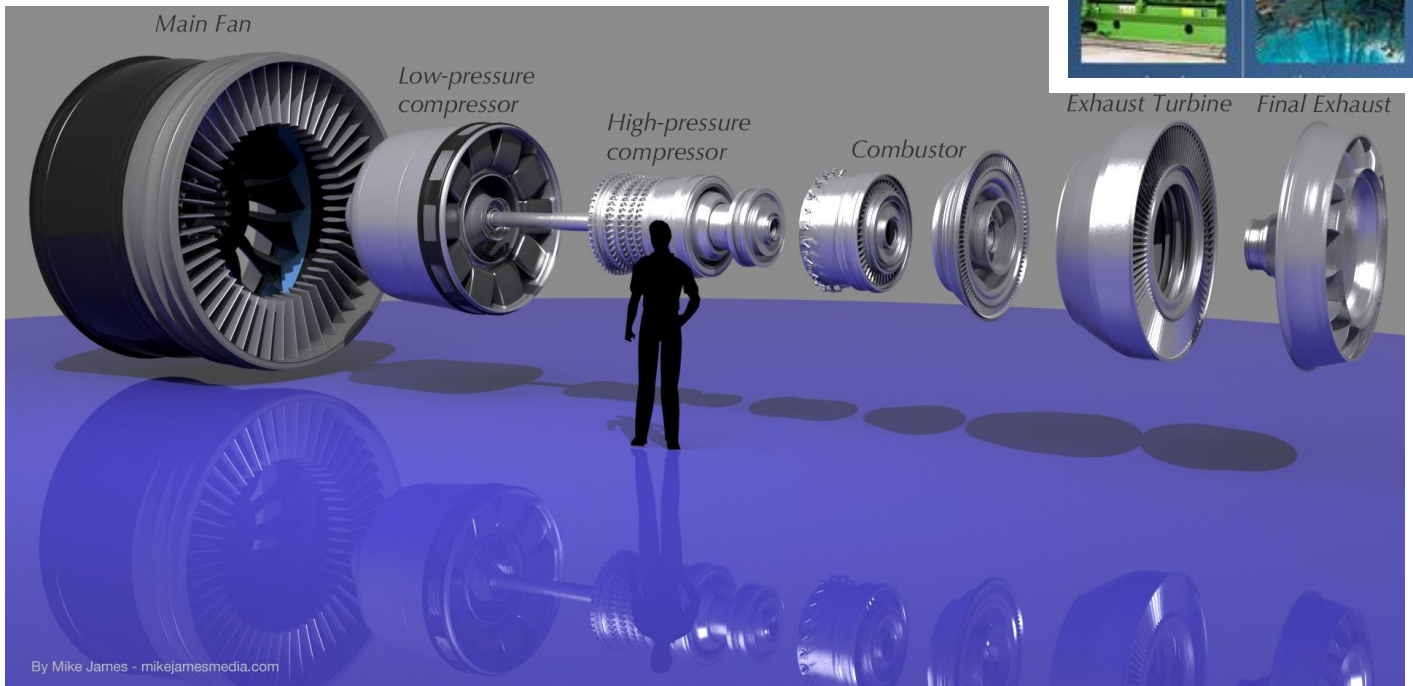

The image displays a collection of Siemens industrial field instruments. On the left is a pressure transmitter with a digital display showing '2.15'. In the center is a large flowmeter with a circular display and a teal cover. On the right is a large control valve with a blue actuator and a digital display showing '612.2'. The instruments are shown against a light blue background.

General Electric, often abbreviated as GE, is an American multinational conglomerate corporation incorporated in New York and headquartered in Boston, Massachusetts. As of 2016, the company operates through the following segments: Power & Water, Oil and Gas, Aviation, Healthcare, Transportation

The range of product in GE Company is so extensive some products are as following:

- Military Gas Turbines, GE Diesels in Marine
- Kind of Engines
- Propulsion Systems
- Exhaust Energy Recovery Systems
- DLE Combustors System

Brüel & Kjær

BRÜEL & KJÆR

Products and solutions overview

info@eaglebarq.com

Brüel & Kjær is a Danish multinational engineering and electronics company headquartered in Nærum, near Copenhagen. It is the world's largest manufacturer and supplier of sound and vibration measurement equipment, systems and solutions.

The range of products and services are very extensive The products generally are manufactured by B & K are:

- ✓ Data acquisition systems and hardware
- ✓ PULSE analysis software
- ✓ Sound and vibration meters
- ✓ Transducers
- ✓ Calibration systems
- ✓ PULSE analysis software
- ✓ Shakers and exciters
- ✓ Environment management solutions

Brüel & Kjær

Schneider Electric

Schneider Electric SE is a French multinational corporation that specializes in energy management and automation solutions, spanning hardware, software, and services.

The range of products and services are very extensive in different sectors.

The products generally are:

- Industrial Automation and Control
- Medium Voltage Distribution and Grid Automation
- Low Voltage Products and Systems
- Solar and Energy Storage
- Building Automation and Control
- Residential and Small Business

FISHER®

- Digital Valve Controllers
- Thermostats
- Actuators
- Monitoring Systems & Facility Control
- Instant Hot Water Dispensers
- Grind2Energy
- Vacuum Equipment
- Construction & Plumbing Tools
- Sensing & Protection Devices
- Electrical Construction Materials & Lighting
- Cleaning Systems & Cell Dis-

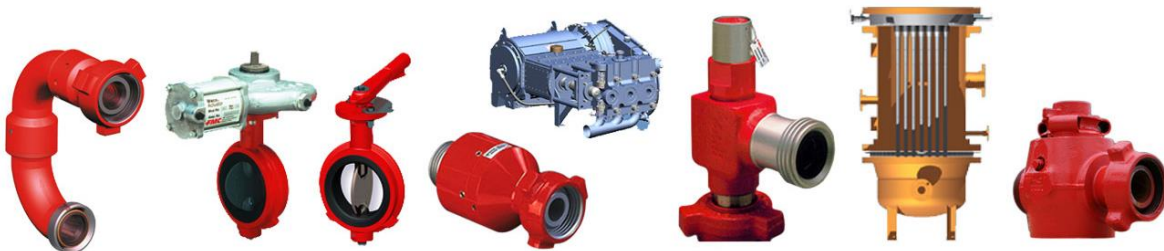

FMC is a French-American provider of equipment and services for the energy industry.

Emirates Moon Co is able to provide these products from FMC company:

Subsea Systems, Fluid Control, Measurement Solutions, Separation Systems, Schilling Robotics, Surface Integrated Services, Surface Wellhead, Loading Systems, Material Handling Systems, Multi Phase Meters, Automation

FMC Technologies

Emirates Moon Co, is able to provide these products from Emerson:

Pressure, Temperature, Level and flow, Measurement, Process, Management, Climate Technologies, Industrial Automation

Endress + Hauser

Emirates Moon Co is able to provide these products from E+H:

Producing instruments measuring level, volume flow, mass flow, density, pressure and temperature/ Analytical instrumentation measuring variables in water quality, such as PH-ORP, conductivity, dissolved oxygen and turbidity/ Instrumentation designed for use in dangerous environments and extreme conditions.

There are many manufacturers and brands that we cooperate with them such as:

YOKOGAWA

Built with
**FLUKE
CONNECT™**
